

There is a five digit code on the top of each carton that tells what day it was produced. Here's how to read it.

A 5 digit code of **13125** on the carton would mean that it was produced on *November 8th, 2015*.

The first and last digits are the year - 13125. **1** and **5** are *2015*

The middle three digits are the date of production in julian date format - 13125. **312** is the 312th day of the year or *November 8th*.
